

CANVAS SPLIT WRAPS

Canvas Split Wraps

In-Lab Time 3-5 Business Days

Give your gallery wrap displays a fresh look by splitting images into multiple wraps. Canvas Split Wraps transform a single image into a multiple-frame work of art... a multi-piece masterpiece! Don't worry about splitting the image yourself, all you have to do is drag and drop your file into the predesigned template in the "Canvas Split Wraps" ROES catalog. The guides shows you the crop and where the image will be split. Just drop it in, review it, send it over and we do the rest!
