

SMALL ORDER SHIPPING

Small Order Shipping

In-Lab Time 1-2 Business Days

Have you ever needed to send two or three small prints to a client, but couldn't get it drop shipped because of the minimum order fee? Next time try checking the Small Order Shipping catalog. Any order placed through here has absolutely no minimum charge. So now you can order those couple prints and have it shipped directly to your customer (or right back to you) at a fraction of the normal price.

Wondering what the catch is? Well the Small Order Shipping catalog has a limited selection of print sizes and finishing options to choose from. Offering this minimal product line allows us to price the order at just the cost of the prints, which means no more minimum fee. So a little less variety translates into huge savings on the remaining sizes. Not a bad trade off, right?
